GRAPHICS COMPANION I

PROGRAM DISK REQUIRED

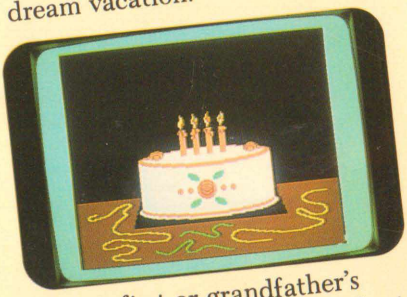
If you own Video Title Shop, you already know how easy and useful it is for creating exciting videotape enhancements. But aren't there times when it would be a lifesaver to have "video ready" graphics instead of having to design your own?

Help has arrived! Graphics Companion I is here. This collection of professionally created electronic canvases will enhance all your video productions and presentations. You can use the drawings "as is" or modify them to suit your needs. Each screen has plenty of space provided for you to add your own text.

Designed specifically to work with Video Title Shop and drawn with MicroPainter Plus, Graphics Companion I includes 25 pictures for many holidays, festivities, and personal remembrances, including Christmas, New Year's Eve, Easter, Valentine's Day, Thanksgiving, Vacations, Birthdays, Weddings, Anniversaries, and Graduations. It also contains five detailed borders for use with these pictures or with your own artistic masterpieces.

Capture the excitement of your dream vacation.



Baby's first or grandfather's eightieth—milestones to celebrate.

The most beautiful bride on that very special day—memories for a lifetime.
